

March 2023

RCHEA

Newsletter

We are so pleased to have our new RCHEA website up and running in efforts to communicate with our members.

As you are aware, Covid put a stop to general membership meetings in person for the past 2 years, so it was decided to start our own website to communicate on a regular basis.

We will be posting newsletters and general membership meeting info regularly.

We have posted our MOU, and Board of Director and job steward contact information as well.

Your negotiation team have been meeting with hospital administration since last year in preparation for upcoming negotiations starting up again in April 2023 and this site will be vital to share information with our members as we progress.

Please share website information with your co-workers and check for updates regularly.

We are planning on meeting in April, so please check back for more information.

Thank you all for your continued support,

RCHEA Board of Directors
